

PURIGENEX™

ADVANCED DERMAL TECHNOLOGY

1. Clean dry face

6. Move mask and cover the cheeks and up to the lower eyelashes for complete coverage, bring mask down to upper lids as well

2. Apply on forehead and cheeks any extra Purigenex Serum at the top of the test tube.

7. Fold Purigenex Mask around the side of eyes for smoother application.

3. Gently remove Purigenex Mask from tube with provided tweezers.

8. Can apply Purigenex Mask over lips to plump and increase integrity.

4. Open Purigenex Mask and apply the outer side down on face.

9. Important Step: Spray on cold purified water every 10-15 minutes to prevent Mask from drying out.

5. Apply Purigenex Mask on face, first on forehead and around eyes, then smooth over total face and eliminate bubbles.

10. Leave on for 30-45 minutes, longer time increases the collagen delivery.

11. Peel off Purigenex Mask from bottom to top, allow skin to dry, apply moisturizer, serums or sunscreens as needed.
